

Welding Automation Solutions

WELDING POSITIONER

FEATURES:

- ✓ 360° Rotation Control – Enables smooth and accurate positioning of the workpiece.
- ✓ Tilt Functionality – Provides flexibility to achieve perfect welding angles.
- ✓ Variable Speed Adjustment – Ensures precision and adaptability for different welding tasks.
- ✓ High Load Capacity – Designed to handle heavy workpieces with stability
- ✓ Improved Weld Quality – Reduces errors and ensures uniform, consistent welds.
- ✓ Time & Cost Efficiency – Speeds up production and minimizes rework
